

ICISSP 2017

3rd International Conference on
Information Systems Security and Privacy

Porto, Portugal | 19 - 21 February, 2017

The International Conference on Information Systems Security and Privacy aims at creating a meeting point for researchers and practitioners that address security and privacy challenges that concern information systems, especially in organizations, including not only technological issues but also social issues. The conference welcomes papers of either practical or theoretical nature, presenting research or applications addressing all aspects of security and privacy, that concerns to organizations and individuals, thus creating new research opportunities.

Identification and Access Control
Privacy-Enhancing Models and Technologies
Mobile Systems Security
Intrusion Detection and Response
Web Applications and Services
Security Architecture and Design Analysis
Privacy Metrics and Control
Risk and Reputation Management
Authentication, Privacy and Security Models
Legal and Regulatory Issues
Security and Trust in Pervasive Information
Vulnerability Analysis and Countermeasures
Security Testing
Pattern Recognition
Data and Software Security
Threat Awareness
Information Hiding and Anonymity
Cryptographic Algorithms
Data Mining and Knowledge Discovery
Security Awareness and Education
Security Frameworks, Architectures and Protocols

CONFERENCE CHAIR

Olivier Camp, MODESTE/ESEO, France

PROGRAM CO-CHAIRS

Paolo Mori, Istituto di Informatica e Telematica, Consiglio Nazionale delle Ricerche, Italy

Steven Furnell, Plymouth University, United Kingdom

REGULAR PAPER SUBMISSION: OCTOBER 7, 2016

Conference Venue

Overlooking the Douro River, Porto is one of the most ancient European cities; it was born and developed from the northern bank of this river during the Middle Ages. One of the most significant aspects of Porto and its historical centre is its landscape, combining harmony with the urban structure and presenting a frame of rare beauty. Port Wine is a sweet fortified wine, exclusively produced in the Douro designated region, named after the city of Porto, where it is aged and bottled. Its unmistakable bouquet, body and flavour are due to the high quality of the grapes, as well as to the region's soil and climatic conditions.
